AKIRA FAMILY LETTER

Dear Family MEMBERS

A clock holds a place of honor everywhere because it never stops doing its duty. Make the best use of your time, and it will raise you to greater heights and make you proud. As you invest a few moments in reading this newsletter, we hope the insights, updates, and Tips shared here will inspire new ideas, encourage growth, and help you make the most of every opportunity. Happy reading!"

Our PHILOSOPHY

Statement 6 - We are challenging ourselves and others with limitless opportunities to transform the workplace as a place of value creation.

Let's know

THE WORLD'S SMALLEST COUNTRY!

Sealand is a tiny self-proclaimed nation with an area of just 27 square meters.

It has its own **government**.

It has its own **currency**.

It has its own **passport**.

It even has its own **national football team**.

However, it is inhabited by only **one or a few** permanent residents.

Evolve: Product Training Program for Channel Partner Technicians

As part of our ongoing commitment to skill enhancement and technical excellence, our Evolve Team conducted a comprehensive Product Training Program on 14 June 2026 at our Experience Centre for technicians from Shiva Export and Kaveri Irrigation, Erode.

The program was attended by approximately 15 technicians and focused on enhancing product knowledge, strengthening technical competencies, and providing practical insights into the effective application of our solutions. Through interactive discussions, live demonstrations, and hands-on learning, participants gained a deeper understanding of product features, installation best practices, and performance optimization.

This initiative reflects our continued efforts to empower our channel partners with the knowledge and skills required to deliver superior service and create greater value for customers.

Unit III: Strengthening Capacity, Accelerating Growth

As part of our strategic growth initiatives and commitment to operational excellence, Akira Controls is pleased to announce the commencement of Unit III on 14 June 2026, located opposite KSB Pumps.

The addition of this new facility marks a significant milestone in our growth journey and reinforces our focus on expanding production capacity to meet evolving market demands. Unit III has been established to enhance manufacturing efficiency, streamline operations, and support the company's long-term vision for sustainable growth.

The inauguration of Unit III is not merely the addition of a new facility; it is a testament to Akira Controls' continued progress, resilience, and pursuit of excellence.

Akira Controls: 21 years of Successful Journey

For 21 years, Akira Controls has been driven by innovation, excellence, and a commitment to creating value. This milestone reflects the dedication of our employees, the trust of our customers, and the support of our partners.

As we celebrate this achievement, we thank everyone who has been part of our journey and look forward to reaching even greater heights together.

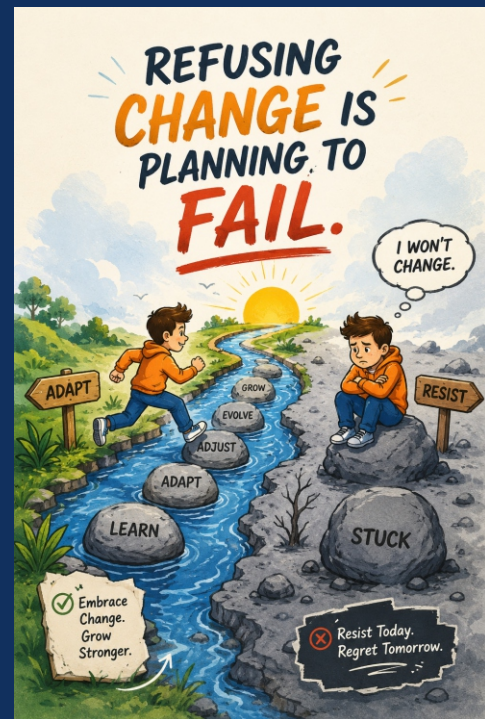

Technical Tips

Popular AI Tools Transforming Industries

Category	AI Tools	Key Applications
Content Creation	ChatGPT, Gemini, Claude, Copilot	Writing, summarization, content generation
Image Generation	DALL·E, Midjourney, Adobe Firefly, Canva AI	Image creation, design, marketing materials
Coding & Development	GitHub Copilot, Cursor AI, Replit AI	Code generation, debugging, software development
Data Analytics	Power BI Copilot, Tableau AI, Julius AI	Data analysis, reporting, business intelligence
Automation	Microsoft Power Automate AI, Zapier AI, UiPath AI	Workflow automation, process optimization
Design & Presentation	Canva AI, Gamma, Beautiful.ai	Presentations, graphics, visual content
Video Creation	Synthesia, Runway ML, Pika Labs	AI avatars, video editing, content production
Customer Support	Intercom AI, Zendesk AI, Freshdesk AI	Chatbots, customer service automation
Productivity	Microsoft Copilot, Notion AI, Grammarly AI	Documentation, communication, productivity enhancement
Engineering & Manufacturing	Siemens Industrial AI, Rockwell FactoryTalk AI, Schneider EcoStruxure AI	Predictive maintenance, quality control, smart manufacturing
